Career Objective

Motivated Data Science engineering student with an interest in programming, data science, artificial intelligence, and software development. Interested in developing practical solutions through technology and applying programming and analytical skills to real-world problems. Seeking opportunities to improve technical skills through projects, internships, and collaborative environments.

Education

Bachelor of Engineering – Data Science 2025 – Present

BITM Engineering College, India

Pre-University / 12th Standard 2025

SMJ science pu college, Karnataka

10th Standard 2023

INDIRA PRIYADARSHINI CBSE SCHOOL SINDHANUR, Karnataka

Technical Skills

Programming Languages: C, Python

Data Science: Data Analysis, Machine Learning Fundamentals

Web Technologies: HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code, Overleaf

Database: MySQL

Other: Problem Solving, Programming Fundamentals

Projects

Smart Traffic Light Control System

- Developed an experimental prototype for intelligent traffic signal control based on vehicle density.
- Used sensors to detect traffic conditions and dynamically control traffic signal timing.
- Designed the system to reduce unnecessary waiting time and improve traffic management.

Smart Soil Moisture Monitoring System

- Developed an automatic plant watering system using a soil moisture sensor.
- Integrated a motor driver, mini DC water pump, buzzer, and battery for automatic water control.
- Designed the system to reduce water wastage and support efficient plant irrigation.

Student Performance Prediction System

- Designed a data-driven project for analysing student academic performance.
- Applied basic data analysis and machine learning concepts to predict student performance.

Academic Projects

- Engineering Design and Innovation projects involving problem identification, ideation, prototyping, testing, and feedback analysis.
- Developed programming-based solutions using C and Python for academic applications.
- Worked on team-based technical projects involving system design and presentation.

Certifications

- forage data visualisation
- Deloitte job simulation
- Data Science

Achievements

- Participated in academic engineering projects and technical activities.
- Developed hardware and software prototypes as part of engineering coursework.
- Participated in programming and technical learning activities.

Soft Skills

Problem Solving
Adaptability

Teamwork
Quick Learning

Communication
Leadership

Time Management
Presentation Skills

Areas of Interest

Data Science — Artificial Intelligence — Machine Learning — Python Programming — Software Development

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge.
